Creative Assessment In The Online Teaching & Learning Environment: Adapting During Extreme Circumstances Michael A Radin, Oksana Danylchenko-cheraniak, 2025-03-07 This book's primary aim is to welcome you to discover the characteristics of the international and multidisciplinary online education in Ukraine. Its objective is to present the development of online teaching and learning environment in Ukraine. In particular, this book emphasizes how the online teaching and learning environment expanded during COVID 19 in 2020-2021 and has also become an essential learning environment during the ongoing Russia-Ukraine War. Many new teaching strategies, courses, and programs of study and exchange programs have been established in recent years of the online teaching and learning environment in Ukraine during COVID 19 and are still vital communications during the Russia-Ukraine War, which led to the circumstances of limited internet and delayed communication. The current education environment in Ukraine presented new experiential learning opportunities and welcomed critical fundamentals and benefits of diversity, equity, and inclusion to Ukrainian students and attracted foreign students as well. We invite you to learn about the unique extended Ukrainian online international and multidisciplinary academic journey that has introduced new teaching and learning practices, innovative technologies, new courses, and programs of study and most importantly, new assessment methods.

Creative Performance in Extreme Human Environments: Astronauts and Space Henderika (Herie) de Vries, Chris Welch, O. Hatamleh, 2021-07-28 *Extreme Trust* Don Peppers, Martha Rogers, 2012-04-26 How companies can stay competitive in a world of total transparency. With their first book in 1993, *The One to One Future*, Don Peppers and Martha Rogers introduced the idea of managing interactive customer relationships long before the Web and social networking made it standard business practice. With *Extreme Trust*, they look to the future once again, predicting that rising levels of transparency will require companies to protect the interests of their customers and employees proactively, even when it sometimes costs money in the short term. The importance of this trustability will transform every industry. Retail banks won't be able to rely as much on overdraft charges. Consumers will expect retailers to remind them when they have unused balances on gift cards. Credit card companies will coach customers to avoid excessive borrowing. Cell phone providers will help customers find appropriate calling plans for their usage patterns. Success won't come from top-down rules and processes but from bottom-up solutions on the part of employees and customers themselves. And the most successful businesses will earn and keep the extreme trust of everyone they interact with.
