Transition of the Automotive Industry Anna Cabigiosu, Pietro Lanzini, 2023-11-10 This edited collection offers deeper understanding of the green and digital transition in the automotive industry It explains how mobility products services and business models are changing the opportunities and threats correlated to this double transition as well as the competences and resources needed for firms in this fluid scenario The book firstly provides an in depth overview of the strategic and

managerial implications for automotive and mobility incumbent firms Chapters describe how sustainable technologies have been changing over time and identify the challenges of the shift imposed by the new competitive environment such as the so called servitization of the industry The second section describes the new drivers of growth and profitability such as open and collaborative innovation and provides guidance on how incumbents can surf this turbulent landscape

Bayesian Regression Modeling with INLA Xiaofeng Wang,Yu Yue Ryan,Julian J. Faraway,2018-01-29 INLA stands for Integrated Nested Laplace Approximations which is a new method for fitting a broad class of Bayesian regression models No samples of the posterior marginal distributions need to be drawn using INLA so it is a computationally convenient alternative to Markov chain Monte Carlo MCMC the standard tool for Bayesian inference Bayesian Regression Modeling with INLA covers a wide range of modern regression models and focuses on the INLA technique for building Bayesian models using real world data and assessing their validity A key theme throughout the book is that it makes sense to demonstrate the interplay of theory and practice with reproducible studies Complete R commands are provided for each example and a supporting website holds all of the data described in the book An R package including the data and additional functions in the book is available to download The book is aimed at readers who have a basic knowledge of statistical theory and Bayesian methodology It gets readers up to date on the latest in Bayesian inference using INLA and prepares them for sophisticated real world work Xiaofeng Wang is Professor of Medicine and Biostatistics at the Cleveland Clinic Lerner College of Medicine of Case Western Reserve University and a Full Staff in the Department of Quantitative Health Sciences at Cleveland Clinic Yu Ryan Yue is Associate Professor of Statistics in the Paul H Chook Department of Information Systems and Statistics at Baruch College The City University of New York Julian J Faraway is Professor of Statistics in the Department of Mathematical Sciences at the University of Bath
