String Quartet:

The String Quartet Paul Griffiths, 1983 This book follows the quartet from its origins in the middle of the 18th century up to the present day. A large percentage of the book concerns the classic period of the quartets and with the works of Haydn, probable inventor of the genre of Mozart of Schubert of Beethoven on the Romantic period Mendelssohn Brahms Dvorak and Debussy finishing with the post 1914 era Schoenberg Bartok Stravinsky and Shostakovich among others

The String Quartet, 1750-1797 Mara Parker, 2017-07-05 The second half of the eighteenth century witnessed a flourishing of the string quartet often represented as a smooth and logical progression from first violin dominated homophony to a more equal conversation between the four voices. Yet this progression was neither as smooth nor as linear as previously thought as Mara Parker illustrates in her examination of the string quartet during this period. Looking at a wide variety of string quartets by composers such as Pleyel Distler and Filtz in addition to Haydn and Mozart the book proposes a new way of describing the relationships between the four instruments in different works. Broadly speaking these relationships follow one of four patterns: the lecture, the polite conversation, the debate and the conversation. In focusing on these musical discourses it becomes apparent that each work is the product of its composer's stylistic choices, location, intended performers and intended audience. Instead of evolving in a strict and universal sequence, the string quartet in the latter half of the eighteenth century was a complex genre with composers mixing and matching musical discourses as circumstances and their own creative impulses required.

String Quartets Mara Parker, 2011 This research guide is an annotated bibliography of sources dealing with the string quartet. This second edition is organized as in the original publication chapters for general references, histories, individual composers, aspects of performance, facsimiles and critical editions and miscellaneous topics and has been updated to cover research since publication of the first edition. Listings in the previous volume have been updated to reflect the burgeoning interest in this genre, social aspects, newly issued critical editions, doctoral dissertations. It also offers commentary on online links, databases and references. Publisher description
