**God's Mandate for Transforming Your Nation** Dexter Low,2016 What is the church s mission in the 21st century Malaysian apostle and missiologist Dexter Low says nation transformation must become our new agenda for fulfilling the Great Commission in our time The current model which calls for uniting the church s leaders worldwide to win 1 billion souls and plant 5 million churches by 2021 isn t working Ultimately it cannot because its emphasis on church planting and evangelism excludes social transformation But when the key pillars of social influence are also realigned according to kingdom principles then your nation any nation will be transformed God s Mandate for Transforming Your Nation provides practical instructions on advancing God s kingdom globally True examples of ways that lead to measurable results are included Low will both challenge and inspire you as a Christian leader to take a significant step forward in fulfilling the church s mission in the 21st century

*Worship That Touches the Heart of God* Nina Gardner,2015-06-18 Do you feel truly alive or are you just going through the motions in life The fulfillment you seek can be found in worship a worship that starts within you The sweet psalmist David provided us his key to worship which God vowed would never end Once you know where you fit into this pattern of worship and experience its freedom you will never opt to live a life of merely going through the motions again You will worship not because you are told to but because you love to In worship God s heart of love is found

Through it you can find joy and feel more alive than ever before

**Investigating Prayer** Ian Olver,2012-10-11 This book

relates the experience of researching planning and conducting a scientific study into intercessory prayer prayer for others

The purpose of the study was to ascertain whether the impact of prayer could be measured in a formal study based on the

large number of anecdotal reports of efficacy The study was a prospectively randomized double blind trial that added prayer

by an established Christian prayer group to conventional therapy for cancer The unique design feature was that the primary

endpoint was a change in a validated scale of spiritual well being The patients were informed that they were participating in

a study about spiritual well being and quality of life but remained blinded to the intervention The initial observation from the

baseline data was that spiritual well being made a unique contribution to quality of life The final outcome of the study was

that there was a statistically significant difference in spiritual well being favoring the prayer group The background includes

a fascinating review of the medical literature on the topic which contains positive and negative studies that each attracts a

vigorous debate about methodology endpoints and whether metaphysical phenomena can or should be studied using

scientific methodology The complementary and alternative medicine literature is also equivocal as to whether prayer

arguably the most common complementary medical therapy should be included in the range of interventions grouped under

that heading In addition to reporting the background and results of the study the book explores the reactions of a range of

individuals to the trial all of which help reflect on the nature of prayer
