Star Over Chingat:

Red Star Over China Edgar Snow, 2017-09-07 The first Westerner to meet Mao Tse tung and the Chinese Communist leaders in 1936 Edgar Snow came away with the first authorised account of Mao s life as well as a history of the famous Long March and the men and women who were responsible for the Chinese revolution Out of that experience came *Red Star Over China* a classic work that remains one of the most important books ever written about the birth of the Communist movement in China This edition includes extensive notes on the military and political developments in China further interviews with Mao Tse tung a chronology covering 125 years of Chinese revolution and nearly a hundred detailed biographies of the men and women who were instrumental in making China what it is today *Red Star Over China* Edgar Snow, 1944 *Red Star Over China - The Rise Of The Red Army* Edgar Snow, 2013-04-18 Originally published in 1939 this is both a far reaching history and an eyewitness account of the communist revolution in China Contains a number of excellent historical photographs Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive Hesperides Press are republishing these classic works in affordable high quality modern editions using the original text and artwork Contents Include In Search of Red China The Road To The Red Capital In Defended Peace Genesis of A Communist The Long March Red Star In The North West En Route To The Front With The Red Army With The Red Army War And Peace Back To Pao An White World Again **Red Star Over China** Edgar Snow, 1984-03-01 An historical survey of the ideals and power structure that make up the Chinese Communist movement **Summary of Edgar Snow's Red Star over China** Everest Media, 2022-07-07T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Chinese Red Army was a mystery that no one had been able to solve It was a mass of hungry brigands some people said while others claimed that they were fighting for agrarian revolution and against imperialism 2 The Chinese Communists were unlike any other Communists I had ever seen They were not like Stalinists or Trotskyites and they did not read Capital or the works of Lenin They were not internationalists but nationalists who were struggling for an independent China 3 The Chinese Communist movement was a fascinating story that was difficult to understand It was a story of China and it was difficult to get information about it 4 I decided to try and enter Red territory in 1936 I had little to cheer me on my way other than a letter of introduction to Mao Tse tung chairman of the Soviet Government I had to find him *Red Star Over China, by Edgar Snow ...* Edgar Snow, 1944 **Five Stars Over China** Mary Austin Endicott, 1953 **Red Star Over China**, 1996 *Americans and Chinese Communists, 1927-1945* Kenneth E. Shewmaker, 1971 *China* K. S. Karol, 1967 150 中国革命 (1823-1990), 2005 **How the "Red Star" Rose** Ishikawa Yoshihiro, 2022-01-30 The fact that Snow did not sneak into red China to gather information constituting the basis of his *Red Start over China* all alone is in many instances misunderstood even by scholars Mao Zedong s biography has been the subject of an international mountain of commentary in China and elsewhere Biographies praising Mao and those

slandering him are all based on the American journalist Edgar Snow's 1905-1972 account in *Red Star over China* for the route Mao traveled from early childhood through his youth. How the *Red Star* introduces the image of Mao and the biographical information made known to the world through the publication of *Red Star* and with its publication the circumstances which they fundamentally undermined. Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being. He desires to help readers to reconsider the historicity of the generation of not only Mao's image but of that of historical materials. With a title that evokes Gao Hua's seminal study of Mao Zedong's rise in the Chinese Communist Party, Ishikawa Yoshihiro asks two critical questions: What did the world know of Mao before the publication of Edgar Snow's *Red Star over China*? How did *Red Star* change that understanding? With the meticulous research, careful documentation, and fair-minded judgment that characterizes all of Ishikawa's work, he shows how little even Moscow and the Communist International knew about Mao before 1936. This study is full of unexpected insights into the origins of early visual images of Mao, the background to Snow's historic trip to northern Shaanxi, and the evolution of the classic study that he left. In a world where balanced judgment of the rise of Mao is increasingly difficult to find, Ishikawa's scholarship stands out as a rare model of judicious balance.

Joseph W. Esherick, Emeritus Professor, Hwei-chih and Julia Hsiu Chair in Chinese Studies, University of California, San Diego. This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century: a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area. It is in addition a history of the reading of the book in multiple languages, including Chinese, that is indexed to the rise of the Mao cult thereafter. Ishikawa captures a moment of a past gearing up in anticipation of a future that never came. This book is a must read for all with an interest in Mao, journalism, and the history of books.

Wen-hsin Yeh, Richard H. and Laurie C. Morrison Chair, Professor in History, University of California, Berkeley. Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow's famous biography in 1936 and then how Snow's images of Mao were translated and transmuted into Chinese, Russian, and Japanese. Joshua Fogel's careful translation brings this impeccable example of Japanese sinology to the English reading public.
